

Domaine Thiot

AOC Sancerre

Domaine Gérard & Hubert Thiot located in Bue, in the Sancerre appellation, in the Loire Valley, France. Bue is famous for its hills, perfect for growing grapes, with great sun exposure and protection from the elements. The soil there is very rich in minerality, composed mainly of clay and chalk, as well as small rocks, which give the wines their acclaimed typicality. Hubert Thiot is the 4th generation running the estate, producing classic white Sancerre from the 9 hectares of Sauvignon Blanc the family owns; he also produces a very small amount of red wine from Pinot Noir.

COUNTRY

France

VARIETAL

Sauvignon Blanc

SOIL TYPE

Stony and chalky clay
