

## Mas Amiel

### AOC Maury 1980

In the South of France, 20 miles from Perpignan, Mas Amiel is protected by the Corbières to the North and the Pyrenees to the South. When Olivier Decelle, Owner since 1999 and Marcel, Wine-maker discovered this exceptional location, they decided to establish Mas Amiel as an internationally renowned wine estate.

The strength of this domaine resides in the richness and diversity of its terroir, climates and grape varieties. A superb terroir of calcoschistes that come from the imbrication and compression of pure clay (forming the schist) and limestone (erosion of the limestone massifs depositing over the clays).

#### COUNTRY

France

#### VARIETAL

90 % Grenache noir  
5% Maccabeu  
5% Carignan

#### SOIL TYPE

Broken down shale and black marl

#### VINEYARD

Selections of parcels in Devez area  
Southern exposure

#### HARVEST

Manual harvest

#### VINIFICATION

Aged for one year in glass demi-johns outside, and since then in 350-hectoliters oak casks

#### TASTING NOTES

Its intense notes of chocolate and fresh figs are followed by a dazzling peppermint finish. The palate is surprising, at once because of its frank and strong attack and because of its surprising acidity for a wine of this age.
